

Mohana Sri Sai Karuparthi

Amalapuram, Andhra Pradesh, India | mohankaruparthi7@gmail.com | linkedin.com/mohansrisaikaruparthi | github.com/mohanssk

Professional Summary

Computer Science undergraduate (B.Tech, Class of 2027) with hands-on full-stack development experience and dual ServiceNow certifications – Certified System Administrator (CSA) and Certified Application Developer (CAD). Built 6+ production web applications using React.js, Node.js, and AI/ML technologies, alongside platform configuration and custom application development on ServiceNow. Strong foundation in data structures, algorithms, and quality-driven engineering. Passionate about building scalable, user-centric solutions across both web and enterprise platform ecosystems.

Technical Skills

Languages: JavaScript (ES6+), Python, C++, SQL, HTML5, CSS3

Frameworks And Libraries: React.js, Node.js, Express.js, Tailwind CSS

Platforms: ServiceNow (System Administration, Application Development)

Tools & Platforms: Git, GitHub, VS Code, Vercel, npm, Postman

Core Concepts: Data Structures & Algorithms, RESTful APIs, OOP, Authentication, Responsive Design

Education

BVC Engineering College (BVCE) – Odalarevu

Andhra Pradesh, India

Bachelor of Technology – Computer Science & Engineering – 8.29 CGPA

July 2024 – April 2027

- Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

BVC Institute of Technology & Science

Andhra Pradesh, India

Diploma – Computer Engineering – 8.8 CGPA

June 2021 – April 2024

Experience

Karvy Data Management Services Limited [Internship]

Hyderabad, Telangana, India

Quality Control Operator

December 2023 – May 2024

Projects

Gyan Ganga – Gamified Ed-Tech Platform | *React.js, Node.js, REST APIs* | **Live** | GitHub

- Built full-stack gamified learning platform for grades 6-12 with NCERT-aligned STEM content, XP points, badges, and offline support
- Implemented teacher dashboard for tracking student progress and performance metrics; deployed to production on Vercel

SignSpeak – AI Sign Language Translator | *Python, Computer Vision, TensorFlow, React* | **Live** | GitHub

- Developed real-time ASL to speech translator using computer vision and ML, processing webcam input with zero latency
- Implemented privacy-first architecture with offline capabilities; built accessible UI for seamless user interaction

AI Career Roadmap Generator | *React.js, Node.js, AI/ML APIs, Vercel* | **Live** | GitHub

- Created AI-powered career planning tool generating personalized learning roadmaps with integrated AI mentor for guidance
- Designed interactive node-based visualization for skill progression with curated free certification recommendations

SemPrep – Academic Notes Sharing Platform | *React.js, Node.js, MongoDB, Auth* | **Live** | GitHub

- Built role-based platform for students and teachers to upload, discover, and download subject-wise PDF notes
- Implemented authentication system with structured metadata (subject, semester, exam type) for efficient resource discovery

Iris Data API – RESTful Backend Service | *Node.js, Express.js, REST, Vercel* | **Live** | GitHub

- Designed production-grade RESTful API serving Iris dataset (150 records) with endpoints for collection and individual lookup
- Built interactive documentation with live testing; deployed serverless backend demonstrating API design best practices

Task Management App | *JavaScript, HTML5, CSS3, Local Storage* | **Live** | GitHub

- Developed responsive to-do list application with CRUD operations, persistent storage, and intuitive UI/UX design

Certifications

ServiceNow Certified Application Developer (CAD) | *ServiceNow*

June 2026

- Validated expertise in building, customizing, and deploying applications on the ServiceNow platform

ServiceNow Certified System Administrator (CSA) | *ServiceNow*

June 2026

- Validated core administration skills across the ServiceNow platform, including configuration, workflows, and security

The Complete Full-Stack Web Development Bootcamp | *The App Brewery / Udemy*

2024

- Completed 60+ hours of comprehensive training in modern full-stack web development technologies.
